Smart India Hackathon 2023 - Opportunity from AICTE

There is a very good opportunity to participate in the event organised by AICTE - Smart India Hackathon 2023. AICTE has been organising this grand event for the last three years and is able to generate good business ideas through this hackathon and support the budding Entrepreneurs in building their ventures & starting their Start up journey with the help of Seed fund provided.

Below is the process to be followed to register yourself -

1. There is only Team participation, for which we need 6 members compulsorily. There should be one Team Leader and five members in each team.
2. The composed team needs to select a Business Problem, which is already given on the portal.
3. Team leaders of the selected teams to be registered at the SIH portal to submit ideas.
4. If Team is selected by the jury members of SIH, then they will go to the Finale which can take place at any location in the entire India.

Interested students need to fill the google link Firstly and give the brief of their idea in the form itself. Once the idea is approved by the Internal team then the team will fill nomination form by connecting Ms. Shipra Shrivastava.
